

## GUIDELINES FOR SUBMITTING YOUR REVIEW RESULTS

If you have already registered, you can log into your account (*reg.icme14.org*) by typing in your username (your default e-mail account) and password.

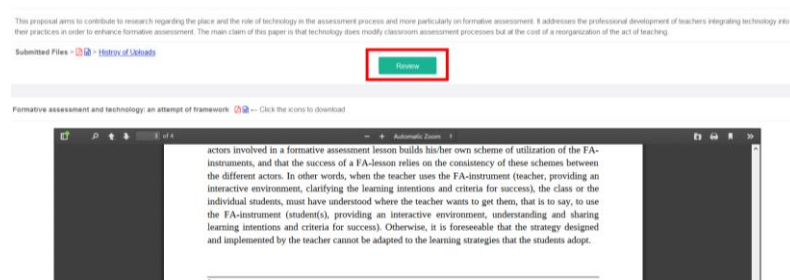

Please check whether you have received the email inviting you to review the manuscript. If you have not received any email, please send email to *reg@icme14.org* and clarify. (Note: The participants who are already involved in the preparation process of the Congress will have pre-entered usernames. These participants include but not limited to: IPC and LOC members, plenary and invited lecturers, team members of the plenary panels and survey teams, members of the TSG organizing teams. These participants received an invitation for registration email from *reg@icme4.org* to the mailbox they used to contact the organizer. What these participants have to do is to click the link in this email which will lead to the existed accounts, then they can proceed to finish necessary information input.)

When you log into the system, please follow the steps to submit your grades and review results.

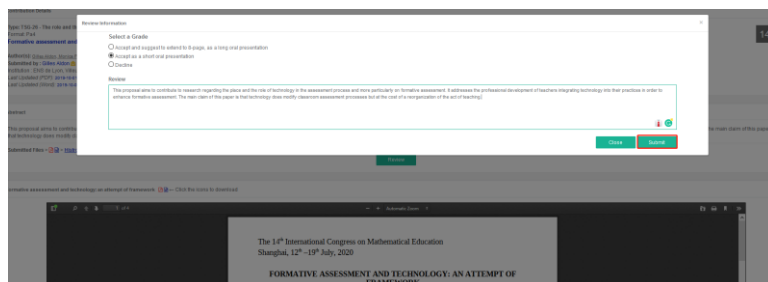

**The first step:** (If you cannot see the *Paper review TAB*, there are two probably situations: ① Chair has not assigned any paper to you, please contact your Chair. ② If you have Registered with multiple email accounts, please check all accounts. For IPC and LOC members, plenary and invited lecturers, team members of the plenary panels and survey teams, members of the TSG organizing teams, if you have thus problem, please contact *reg.icme14.org*.)

**The second step:** (After reading the article, click the review button to review.)

**The third step:** (Grading and reviews must be completed before submission. It cannot be modified after submission.)

If you still can't submit your review comments, please provide screenshots of your error page and documents for us to locate your problem. *ICME-14, Technical Troup*
